

Found a stray dog

If you find a stray please take the following action even if the dog's conditions are not good as you do not know how long the dog has been missing for.

1. have the dog scanned for a chip which any vet or shelter can do at no cost
2. report the dog as found to local animal control and shelter and make sure to leave your name and number so you can be contacted (for towns with no animal control report to your local police)
3. check Craigslist "lost and found" section
4. post on Facebook "lost and found" page for your city/state
5. share with your local rescue should they be aware of a missing dog

If your dog goes missing please take the following action

1. call your microchip company and validate that the phone numbers on the registration are correct
2. report the dog as MISSING to local animal control and shelter and make sure to leave your name and number so you can be contacted (for towns with no animal control report to your local police)
3. create a post on Craigslist "lost and found" section. include photo and phone number
4. create a post on Facebook "lost and found" page for your city/state. Include photo and phone number
5. share with your local rescue should so they can post to Facebook
